LAUNA WINDOWS is very proud to have not only been assessed as compliant by CHAS Construction Health & Safety Assessment Scheme but also have now become a CHAS Accredited Contractor.

A CHAS compliant supplier must meet acceptable standards of Health and Safety. To be awarded a Certificate of Accreditation means that we can use the CHAS logo on our livery and stationary. It also commits us to being assessed every year to remain Accredited which is a time consuming and costly process and proves our commitment to our Health and Safety Policy.
